

COLDWATER, OHIO, U.S.A. 45828

QUALITY FARM EQUIPMENT SINCE 1899

January 20, 1975

TO: ALL LAWN AND GARDEN DEALERS

SUBJECT: IMPROVED PARTS FOR EGT-120, EGT-150 AND EGT-200 ELECTRIC TRACTORS

The reports submitted to us over the past months have indicated two problem areas associated with certain EGT-120, EGT-150 and EGT-200 Electric Tractors. These are:

- * EXCESSIVE FAILURES OF THE ELECTRIC LIFT
- * EXCESSIVE VIBRATION IN THE 42 INCH MID-MOUNT MOWER

To correct these problems, improved parts are being shipped and invoiced to you for installation on each tractor and mower you now have in inventory or have sold.

Two different packages are being shipped; one for EGT-120 and EGT-150 Tractors (Lots 3, 4, 7 and 8) and one for EGT-120, EGT-150 and EGT-200 Electric Tractors (Lots 10, 11 and 12).

Package No. 121143

Must be installed on the following Electric Tractors:

EGT-120	Lots 3 and 7
EGT-150	Lots 4 and 8

Consists of:

- A. New lift motor with installation instruction sheet #985902.
- B. Wire package to convert electric lift mechanism from 36 volts DC to 18 volts DC and installation instruction sheet #985803.
- C. Three reinforcement rings for 42 inch mid-mount mower and installation instruction sheet #985901.

Parts credit and credit for 1.6 hours of labor for installation of this package will be credited to your account upon receipt of the completed warranty form (CR-235) and the used lift motor removed from the tractor. The old lift motor must be returned to your region before warranty credit can be granted.

Package No. 121144

Must be installed on the following Electric Tractors:

EGT-120	Lot 10
EGT-150	Lot 11
EGT-200	Lot 12

Consists of:

- A. Wire package to convert electric lift mechanism from 36 volts DC to 18 volts DC and installation instruction sheet #985903.
- B. Three reinforcement rings for 42 inch mid-mount mower and installation instruction sheet #985901.

A lift motor is not included in this package, since the new modified motor is already installed on these machines.

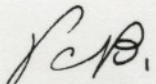

Parts credit and credit for 1.1 hours labor for installation of each package will be issued to your account upon receipt of the completed warranty claim (CR-235).

To help expedite this program with your customers who have purchased these tractors, we are sending them a letter outlining this program and advising them to contact you as soon as possible.

To obtain warranty credit, these improved parts must be installed by May 1, 1975.

Sincerely,

AVCO NEW IDEA FARM EQUIPMENT
