

**ELECTRIC GARDEN TRACTOR EGT 120 AND EGT 150
DEALER SET UP AND DELIVERY CHECK LIST**

Check the following items:

1. Check wiring for loose connections
 - A. Power resistor
 - B. Lower control panel
 - C. Upper control panel
 - D. Drive motor
 2. Power Pack
 - A. Trays and poly bags installed
 - B. Batteries **tightly** connected
 - C. Protective grease on battery terminals
 - D. Electrolyte level 1/4"-3/8" above perforated plate
 - E. Covers & clamps installed
 - F. Spacer between battery and control panel
 3. Lift (test with attachment)
 - Up
 - Down
 4. Headlight and dash light - on & off
 5. Throttle

With the shift lever in neutral, advance the throttle through all speeds and note the following number of speed changes.

Forward speeds	
EGT 120 (3)	EGT 150 (7)
Reverse speeds	
EGT 120 (2)	EGT 150 (3)
- Note: Power use gage should not be in red zone in any operating speed; although initial motor starting will normally deflect the meter to full scale momentarily. Cold weather may cause high currents until tractor runs for a short period of time.

Perform the following:

11. Adjust tire pressure to 15# front, 10# rear
12. Grease spindles, front wheels and pivot pin
13. Oil brake pedal shaft and lift spool shafts
14. Charge batteries upon receipt and before delivery!

The following list of attachments and accessories can be obtained for your Electric Garden Tractor EGT 120 and EGT 150 from your Avco Lawn & Garden Dealer.

These attachments and accessories are of design to provide safety, ease of operation, economy, ruggedness and maintenance-free features.
