RECONDITIONED MOWER MOTORS

To All Dealers:

We now have in stock a limited supply of reconditioned mower motors for all General Electric Elec-Trak tractor mowers. These motors have been completely renovated with new parts, where necessary. Dealers will now have the opportunity to offer customers, with out-of-warranty mowers, replacement motors at prices considerably lower than comparable new ones.

Orders should be placed through Parts Distributors early, since supplies are limited.

Ordering information is shown below:

Order this		Comparable New		Dealer Net	Suggested	Used on
No. for Recon-	ditioned Motors	Motor Number	Motor Number	Price	List Price	
247A7673	P-1	541C971	P-1	\$31.50	\$42.00	AA42 4½" dia.
247A7673	P-2	155C8075	P-1	31.50	42.00	AH42 Mid. 4½" dia.
247A7673	P-3	158C9017	P-1	31.50	42.00	AA42 4½" dia.
247A7673	P-4	155C8086	P-1	31.50	42.00	AH36 4½" dia.

GENERAL  ELECTRIC

SPECIAL OFFER

A limited number of post-to-post battery testers are available at a reduced price of \$5.95, each. The tester's quick application ability lends itself well to field checking batteries for shorted or dead cells. However, the post-to-post tester does not offer control or indication of long discharging periods such as that obtained by the battery discharge tester.

Order as post-to-post battery tester, #243A4509P1.

RENEWAL PARTS

All tractor replacement spindles now being produced are painted black, This is done to achieve rapid spindle availability from the factory for spare parts stocking.

Paint the spindle yellow or industrial orange, as required when spindle replacement is performed.
