RIDE WITH PRIDE COMPETITION

Winners for the month of March in the "Ride With Pride" Quality Control Program competition will be determined soon. As announced earlier, the purpose of this program is to make everyone more aware of the continuing need for high quality workmanship and to reward those who maintain a high level of quality performance by granting both group and individual awards.

Awards will be given to the group exhibiting the best monthly performance based on points earned for good workmanship and minus points charged for not-so-good workmanship. An annual award will be given to the group that maintains the best overall performance. Specific rules for points earned or lost by each area have been posted on the factory bulletin boards. Rules for individual winners will also be posted.

Areas of competition are as follows:

- Paint Line - 1st Shift
- Paint Line - 2nd Shift
- Paint Line - 3rd Shift
- 1st and 2nd Shift Mower and Paint Line
- Tractor Packing and Repair
- PCB Fabrication Area
- Termination
- Electrical Assembly
- Tractor Assembly
- Machining - 1st Shift
- Machining - 2nd Shift
- Production Support
- Building 803

See next week's Elec-Trak News for details of the individual Quality Contributor Award.

ADDITIONAL PARKING SPACE has been obtained to accommodate OPEO employees having red parking stickers. Location of these new areas is shown on the map on the back page.
