OUTDOOR
POWER EQUIPMENT
OPERATION

August 24, 1973

To: All Elec-Trak Tractor Dealers

As explained in Product Service Bulletin 73-2, in-warranty repairs on transaxles are to be performed by Tecumseh-Peerless factory-authorized repair outlets. Some dealers have expressed a desire to perform in-warranty service on transaxles included in the equipment they sell. This can be accomplished by becoming an unlisted, registered service dealer with the Tecumseh Products Company. An application to become such a dealer is attached and should be completed and forwarded to Tecumseh if you are interested in having a representative contact you.

Also spare parts needed for any out-of-warranty transaxle repairs you may perform should be ordered from an authorized Tecumseh service distributor. A listing of these distributors is included with this letter. Spare parts for the transaxles will no longer be available from General Electric.
