August 24, 1973

To: All Elec-Trak Tractor Dealers

Reconditioned drive motors for the model E15 and E20 tractors are being made available for out-of-warranty repairs of original owner equipment.

For the dealer price of \$99.95 and \$96.80 for an E20 and E15 reconditioned drive motor respectively and return of the failed drive motor, a reconditioned drive motor can be obtained.

Reconditioned motors should be ordered by placing an order directly with Order Service.

	<u>Part No.</u>	<u>Dealer Net</u>	<u>Sugg List</u>
Drive Motor E20 Reconditioned	247A7670P1	\$99.95	\$133.00
Drive Motor E15 Reconditioned	247A7671P1	\$96.80	\$128.00

You will be billed for the price of a new motor and will receive credit of \$57.05 and \$50.20 for an E20 and E15 drive motor respectively when the failed motor is returned to our factory with proper identification.

Reconditioned motors are being made available because the E15 and E20 traction motors require adjustment by specialized trained personnel and therefore are not repairable by dealers. These reconditioned motors will carry the standard Elec-Trak Garden Tractor warranty of one year on material only.
