

GENERAL ELECTRIC GARDEN TOOLS

HEDGE and SHRUB TRIMMER MODEL TH70

LANDSCAPE LIKE A PROFESSIONAL. SHEARS UP TO $\frac{3}{8}$ " BRANCHES WITH EASE!

- Features 15" double edge steel blades with reciprocating motion.
- Helper handle makes it easy to use in horizontal or vertical positions.
- Hedge and shrub trimmer head TH70 fits standard GE power unit.

USE IT VERTICALLY

USE IT HORIZONTALLY

This TH70 trimmer head is designed for use on the GE TM3 power unit. The 15" double-edged, hardened steel cutting blades mean fast, effective trimming of shrubs and hedges in either direction. The head contains a two-stage reduction gearing system designed to operate the cutting blades at 750 strokes per minute. The bale-type handle packed with each head provides professional balance and handling ease. The die-cast, aluminum housing contains permanently lubricated bearings and weighs only 2½ lbs.

SPECIFICATIONS:

Motor rated for 36 volts DC only, length of cut 15", weight 5½ lbs.

GRASS TRIMMER MODEL TH80

**TRIMS HARD TO REACH PLACES.
LANDSCAPE LIKE A PROFESSIONAL!**

- Ideal for cutting around trees, rocks, along stone walls, under fences.
- Has built-in clutch which will slip to prevent damage to the mechanism should hard objects get into blades.
- Grass trimmer head TH80 fits GE power unit.

The Model TH80 grass trimmer head is designed for use on the GE TM3 power unit. The hardened steel blades have a 5" cutting width, at 750 strokes per minute. A built-in slip-clutch prevents mechanism damage should a hard object get between teeth. The die-cast aluminum housing contains permanently lubricated bearings and weighs only 1 lb. 12 oz.

SPECIFICATIONS:

*Motor rated 36 volts DC only,
width of cut 5", weight 4 lbs. 12 oz.*
