*(Specifications and design subject to change without notice)*

#### **AN EXPLANATION OF CHANGE INDICATOR LINE**

New and revised information is identified by vertical lines marked in the left-hand margin of revised pages. These lines indicate changes affecting the ordering of parts.

#### **AN EXPLANATION OF SERIAL NUMBER INFORMATION**

Serial number information is listed parenthetically to show on which machines each part can be used. These listings are explained by the following examples.

- ( - ) The part can be used on all machines.
- (000000- ) The part can be used on all machines beginning with the serial number listed.
- ( -000000) The part can be used on all machines up to and including serial number listed.
- (000000-000000) The part can be used on all machines between and including the serial numbers listed.

Where XXXXXX's are listed in place of a serial number it indicates a serial number change was made but the exact serial number had not been established when the catalog went to press.

#### **EXPLANATION OF PARTS LISTED AS "SERVICE ONLY"**

Certain parts in this catalog are listed in the description column as "Service Only." These parts serve as a replacement or additional part for service instead of the part originally furnished. The serial numbers shown list the machines on which the "Service Only" part may be used.
