AN EXPLANATION OF CHANGE INDICATOR LINE

New and revised information is identified by vertical lines marked in the left-hand margin of revised pages. These lines indicate changes affecting the ordering of parts.

AN EXPLANATION OF SERIAL NUMBER INFORMATION

Serial number information is listed parenthetically to show on which machines each part can be used. These listings are explained by the following examples.

- (-) The part can be used on all machines.
- (000000-) The part can be used on all machines beginning with the serial number listed.
- (-000000) The part can be used on all machines up to and including serial number listed.
- (000000-000000) The part can be used on all machines between and including the serial numbers listed.

Where XXXXXX's are listed in place of a serial number it indicates a serial number change was made but the exact serial number had not been established when the catalog went to press.

EXPLANATION OF PARTS LISTED AS "SERVICE ONLY"

Certain parts in this catalog are listed in the description column as "Service Only." These parts serve as a replacement or additional part for service instead of the part originally furnished. The serial numbers shown list the machines on which the "Service Only" part may be used.
