AN EXPLANATION OF SERIAL NUMBER LISTING

Lawn Sweepers are either identified with a "type-serial number" label or a "date-of-manufacture" label. When ordering parts, refer to the six-digit serial number or the four-digit date-of-manufacture number. When writing about or filling out warranty claims, always refer to the model and serial number or date-of-manufacture number. Examples of each label are shown below:

Serial Number: **W2261** **100001M**
 Type Serial

Date-of-Manufacture: **7505**
 Date-of-Mfg.

Serial number information is listed parenthetically to show on which machines each part can be used. These listings are explained by the following examples.

- (-) The part can be used on all machines.
- (000000-) The part can be used on all machines beginning with the serial number listed.
- (-000000) The part can be used on all machines up to and including serial number listed.
- (000000-000000) The part can be used on all machines between and including the serial numbers listed.

Where XXXXXX's are listed in place of a serial number it indicates a serial number change was made but the exact serial number had not been established when the catalog went to press.

SI (INTERNATIONAL SYSTEM) UNITS OF MEASURE

"Metric equivalents have been included, where applicable, throughout this parts catalog".

(Specifications and design subject to change without notice.)
