INDUSTRIAL TRACTOR

PLANT MAINTENANCE

Maintenance Cart (AF12/CF20)

This all-steel cart is a rolling shop with galvanized steel workbench and a lockable bin. Two large compartments forward keep large tools from rolling around. A two-man seat for putting more men on the job quickly is optional for the cart. The maintenance cart is also available without bins and compartments.

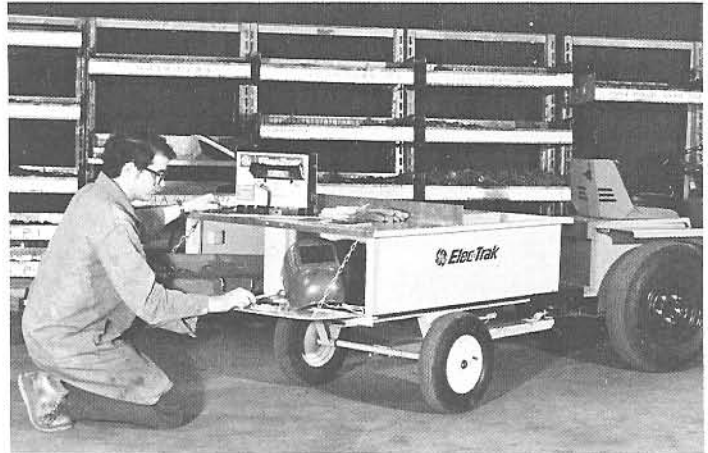

SPECIFICATIONS

Model: AF12/CF20

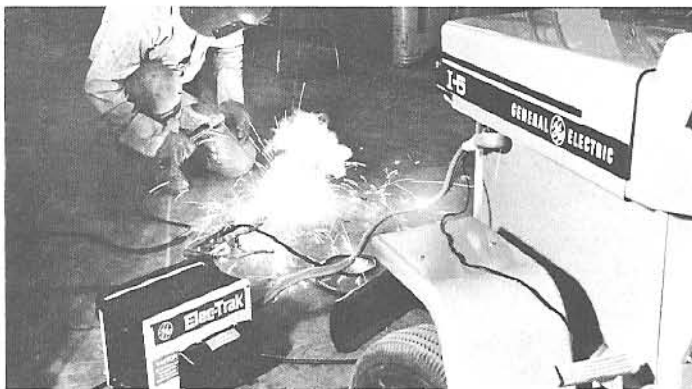

Capacity: 1/2 ton

Compartment Size: 4' x 3' x 1'

Tires: Pneumatic 4:30 x 8, sleeve bearing with grease fittings

DC Arc Welder (AP90)

A 180-amp DC arc welder is available for the I-5 Elec-Trak[®] industrial system. The welder plugs into the tractor for power and three heat ranges allow welding up to one-half inch steel. A welder kit, including helmet, gloves and welding rods is available (AP92).

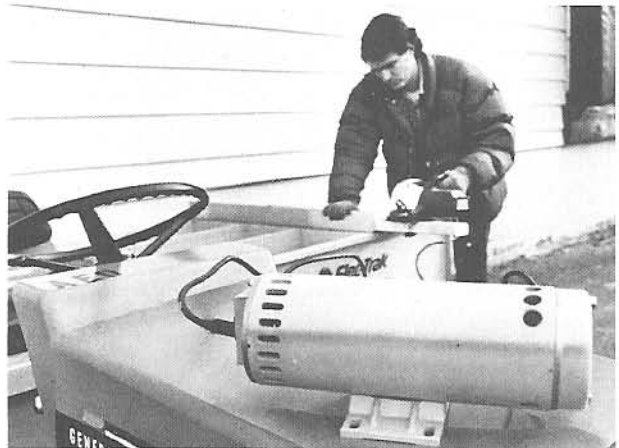

SPECIFICATIONS

Model: AP90

Output: 3 heats; 180-amperes at highest heat
Welds up to 1/2-inch steel

Plugs into three-prong I-5 power takeoff receptacle — uses tractor battery power.
Optional helmet, gloves available (AP92)

Rotary Inverter (CE12)

Put 120-volt, AC power for your tools where you want it with this rotary inverter. The inverter plugs into the I-5 tractor's 36 volts DC through the accessory outlet and puts out up to 120 volts AC. High starting capacity for induction motors and up to 1000 watts continuous output.

SPECIFICATIONS

Model: CE12

Output: 120 VAC/8 amps nominal

Size: 15" long x 4.5" in diam.

Weight: 23 pounds

I-5 Tractor Plug: Elec-Trak[®] Accessory 2-prong Inverter Receptacle: Standard AC with third wire

DEBRIS MANAGEMENT

Rotary Broom (CGE48/KM10)

A powerful four-foot wide rotary broom sweeps away debris, including up to 8 inches of snow. A DC motor starts long-wear polypropylene bristles spinning at the touch of a dashboard power take-off switch. Another switch adjusts sweeping pressure or completely lifts the broom with the I-5 electric front implement lift. The broom has three angles of attack. Like all attachments, it detaches in minutes, freeing the I-5 for other duties.

SPECIFICATIONS

Model: CGE48/KM10
Size: 48" Wide x 26" in diameter
Weight: 285 pounds

Hard Surface and Turf Vacuums (CV60/CV70)

Heavy duty suction cleans your floors of small scrap and parts and even soda cans and glass. The vacuum's DC motor is controlled from the PTO switch on the I-5 dashboard. Model CV 60 is used for hard surface vacuuming and has dis-

posable waste bags. An optional 30-foot cord allows the vacuum to be manually pushed into tight places. Model CV 70 has larger wheels and a larger capacity catch bin which allows it to be used for parking lots and turf. They trail well, detach in minutes.

SPECIFICATIONS

	CV60	CV70
Capacity	2.6 bushels	25 bushels
Intake opening (adjustable front door)	30"	30"
Weight	210	325
Removable waste bag	X	
Easy-dump collection cart		X
Adjustable nozzle height	X	X
Off-tractor push handle	X
